

KEN ZAMARIYAN

Full-Stack Web Developer

Banyumas, Jawa Tengah | +62 858-7822-1758 | kenzamariyan32@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Full-Stack Web Developer with a Bachelor's degree in Informatics Engineering and hands-on experience building responsive web applications and RESTful APIs. Proficient in React, Next.js, Node.js, Express.js, PostgreSQL, and modern web development practices. Experienced in developing end-to-end features across frontend, backend, database integration, and API development with a focus on maintainable and scalable solutions.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, SQL

Frontend: React, Next.js, Vue.js, Vite, Tailwind CSS

Backend: Node.js, Express.js, Go

Database: PostgreSQL, MongoDB, MySQL, Firebase, Supabase

Tools: Git, Github, Docker, Postman, Figma, Vercel

WORK EXPERIENCE

Koperasi Petani Jaya Makmur Indonesia (KPJMI) - Purwokerto, Jawa Tengah **Aug 2024 – Jan 2025**

Full-Stack Web Developer Intern

- Developed a full-stack company profile website over a 1-month project, implementing 5 public-facing pages using HTML, CSS, PHP, MySQL, and Bootstrap.
- Built an admin content management system with 10 use cases, implementing authentication and CRUD functionality for products, information, social media, and website content.
- Translated stakeholder requirements into system architecture, UI/UX designs, and database structures using UML, Figma, and MySQL Workbench.
- Performed Blackbox Testing and responsive compatibility testing across desktop and mobile devices to validate functional and interface requirements.

PT. BIT Indonesia - Purwokerto, Jawa Tengah

Jul 2025 – Dec 2025

Full-Stack Mobile Developer Intern

- Developed GOTANI, a sales and inventory application using React Native, Expo, TypeScript, and Firebase to digitize transaction and inventory workflows.
- Implemented multi-user functionality for 2 roles with authentication, CRUD operations, transactions, inventory, and real-time reporting.
- Integrated Firebase Cloud Firestore with 7 core collections for real-time data synchronization.
- Validated 27 functional test cases using Black Box Testing, achieving a 100% pass rate across authentication, product management, transactions, reporting, inventory, and user settings.

EDUCATION

Universitas Muhammadiyah Purwokerto

Aug 2021 – Jan 2026

Bachelor of Informatics Engineering, Informatics Engineering

GPA: 3.66 / 4.00

PROJECT EXPERIENCE

KPJMI Company Profile Website (GitHub) (Demo)

Full-Stack Web Developer

Company profile website for Koperasi Petani Jaya Makmur Indonesia (KPJMI), featuring company information, product catalog, news/information, contact details, and an admin content management system.

- Developed 5 public-facing pages covering company profile, products, information, and contact.
- Built an admin CMS with 10 use cases, including authentication and CRUD operations for website content.
- Designed UI/UX and database structure based on stakeholder requirements using Figma, UML, and MySQL.

Technologies: HTML · CSS · JavaScript · PHP · MySQL · Bootstrap · Figma · Git

ContractChill — AI Contract Analyzer (GitHub)

Full-Stack Developer

AI-powered legal document analyzer that helps users identify contract risks, understand clauses, and generate negotiation insights from uploaded documents.

- Built AI-powered analysis for PDF, DOCX, and TXT contracts, generating risk flags, clause summaries, and negotiation scripts.
- Developed a full-stack architecture with React, TypeScript, Node.js, and Express, integrated with Google Gemini for contextual AI analysis.
- Implemented authentication, analysis history, and persistent data management using Firebase Authentication and Firestore.

Technologies: React · TypeScript · Vite · Node.js · Express.js · Firebase · Firestore · Google Gemini 2.5 Flash · Tailwind CSS · Docker

CERTIFICATIONS

Certified Programmer — Software Development Jul 2025

Badan Nasional Sertifikasi Profesi (BNSP)

- Competencies: Software Specifications, Coding Best Practices, Structured Programming, Object-Oriented Programming, Database Access, Debugging, Unit Testing

HubSpot CMS for Developers II (Credential) May 2026

HubSpot Academy

- Web Accessibility · Website Performance · Theme Development · SEO

Google AI Professional Certificate (Credential) May 2026

Google

- 7-course program covering AI-assisted research, data analysis, content creation, app building, and coding.

ACHIEVEMENTS

Top 100 — #JuaraVibeCoding May 2026

Google Developer Groups

- Developed ContractChill, an AI-powered legal document analyzer that extracts risk insights, clause summaries, and negotiation scripts from PDF, DOCX, and TXT contracts.
- Built a full-stack application using React, TypeScript, Node.js, Express, Firebase, and Google Gemini 2.5 Flash, implementing authentication, AI analysis, document processing, and persistent analysis history.
- Recognized among the Top 100 projects for outstanding performance in the #JuaraVibeCoding competition.
